

February 15, 2018

CMS has posted a revised SNF Advanced Beneficiary Notice (ABN) form along with instructions [here](#). The SNF ABN is addressed in the interpretive guidelines for F582. CMS previously stated that it would allow providers a 90-day transition time to the use of this new form and during that time would not cite providers for using the old forms. However, SNFs should transition to using the new form as soon as possible.
