

June 13, 2019

Governor Baker today signed into law legislation enacting a three-month delay in the start date of the required contribution for the Paid Family and Medical Leave (PFML). The required contribution start date is now October 1. This action follows an agreement earlier this week between the Governor, Senate President Karen Spilka and House Speaker Robert DeLeo to adopt legislation that would delay the start date and clarify program design to ensure successful implementation of the PFML program this fall.
