

October 17, 2019

Mass Senior Care's President Tara Gregorio and Vice President of Clinical Operations for Bane Care Management, Lynne Farrell were featured in the Betsey Lehman Center's Patient Safety Beat article, "[Efforts are on to raise flu vaccination rates for Massachusetts health care staff.](#)" Farrell described the program that Bane Care Management has implemented to increase the percent of health care workers receiving the flu vaccine in Bane Care Management buildings. Gregorio discussed the challenges nursing homes face related to vaccination myths and staff turnover which may contribute to lower healthcare worker vaccination rates.
