Today's Agenda

New DPH Guidance

Supporting the Emotional Well Being of Staff

Celebration of Completion of Program

Performance Improvement Discussion

Wrap-up and Poll

Questions & Answers

New DPH Guidance

- Visitation:
 - Fully vaccinated residents can have in-room visits if their visitors are fully vaccinated.
 - If in a multi-bedded room, all residents in the room need to be fully vaccinated in order for the in-room visit to occur
 - Social distancing not required; facemasks are (if able)
- Indoor Group Activities:
 - Only residents who have fully recovered from COVID-19, those residents not in isolation for suspected or confirmed COVID-19 status, and those residents not currently quarantined due to exposure or new admission can participate in the indoor group activities;
 - Participating residents who are not fully vaccinated must remain at least six feet apart and residents must wear a face covering, if they are able to do so;
 - No singing or wind instruments
- Communal Dining:
 - Small groups of residents who are fully vaccinated may dine together at a table without social distancing. Tables should still be 6 feet apart from one another and dining companions should be consistent across meals and days;

Continued....

- Reporting:
 - Roster reporting of Residents and Staff for testing purposes has been changed to once per month, instead of every other week.
 - Reports are due on the 14th day of the month following the month you are reporting on
- Quarantines
 - New admissions, or residents returning from LOA (medical or non-medical) that are fully vaccinated, are NOT required to quarantine for 14 days
- Surveillance Testing
 - Fully vaccinated staff need to be tested every other week, while non-vaccinated staff remain on every week testing schedule

Goals of this Session

- Celebrate the completion of the 16 week Project ECHO program – acknowledge the participation and commitment of attendees to this quality improvement initiative
- Acknowledge the great work done by staff under extraordinarily difficult circumstances
- Expand our thinking about moving forward post-pandemic and post-vaccination period
- Provide attendees with strategies for self-care and for helping to move staff into the “new normal.”

Today Session Features

- **Susan Wehry, MD** is the Chief of Geriatrics at the University of New England College of Osteopathic Medicine and the Director of AgingME, Maine's Geriatric Workforce Enhancement Program (GWEP).
- A geriatric psychiatrist with over 35 years of experience, Dr Wehry promotes healthy, meaningful aging to:
 - students
 - policy makers
 - health and human service professionals
 - older adults
 - family caregivers

Discussion

- What is something your facility has done or plans to do to support staff's emotional well-being?
- What are you doing to support yourself?
- What are things we (MSCA/Your ECHO Team) can do to support the long-term care workforce?

Tip Sheets on Nursing Home Staff Support and Mental Health 12-12-2020

CORE PRACTICES TO CONSIDER IMPLEMENTING NOW

- Encourage staff to reflect on their experiences through idea boards on each floor, small reflections, artwork or music. These personal stories or ideas may be anonymous if staff wish. Nursing homes may compile these reflections into a small book along with staff and resident art and even song lyrics. These reflection books may be distributed to staff so that they can read and reflect and know that *they are not alone* in what they have felt and witnessed during the pandemic, and that their voices have been heard and appreciated.
- Help staff prioritize each day. So many new tasks are being added to already overwhelmed people and everything takes much longer than usual. It can be really hard to figure out what needs to come off the ‘to do’ list in order to accommodate new asks or requests. This often requires discussion and negotiation. Leaders can be proactive and ask staff if they would like to talk about reorganizing their day and deciding what tasks can be eliminated or postponed. Not everything can remain ‘high priority’ on our lists! Centralizing where staff members can easily access updated information is essential.
- Use daily ‘check-in boards’ where staff can share their level of stress.

- You may have heard the expression, “Stockpile Compassion!” Encourage all to be forgiving and gracious, both with themselves and with others. The more we can do so, the more we can overcome the moments when people may not act as they normally would due to the stress of experiences during the pandemic.
- Create a psychologically safe workplace in which staff can speak up when they are overwhelmed or struggling; no judgment, no retaliation.
- NORMALIZE asking for help. Many healthcare staff struggle with admitting they need help, especially if they know that everyone else feels as stressed as they do. *A safe space to speak up and ask for help needs to be part of nursing home culture.*
- Creating rest spaces is also important. Staff may worry about enough space to eat meals because break room spaces may not be created with “physical distancing” in mind. Staff may be nervous about being without masks eating near their colleagues. In response, some centers have posted schedules for other larger open spaces indicating when they are available for staff to use. Centers have posted infection control processes for using the space next to the schedule and provided sanitizing wipes so that people can feel even more comfortable that spaces

What We Have Accomplished: Topics Covered

What We Have Accomplished: The Numbers

- 306 Facilities
- 144 Sessions
- 1679 participants
- 136,000 total Vaccine Doses Administered in Nursing Facilities

Zoom Meeting:

Meeting Staff Needs for Trauma Informed Care & Support in 2021

Tuesday, March 30, 2021	10:00 am - 11:30 am
Thursday, April 1, 2021	1:00 pm - 2:30 pm
Thursday, April 8, 2021	1:00 pm - 2:30 pm
Thursday, April 15, 2021	10:00 am - 11:30 am

*This 90-minute webinar will be repeated on four separate dates.
Each session is limited to 50 participants.*

Webinar Description:

Through a moderator led discussion, Cassandra Tribe-Scott will explore the various ways that the pandemic and other aspects of social unrest have and continue to effect long term care staff. Ms. Scott will introduce customizable tools for nursing facility leaders as they provide continued support to staff in the management of their emotional well-being in a post-COVID-19 environment.

To maximize the attendee's experience, we respectfully request that all attendees participate in this session on camera.

Objectives:

- 1) Understand the various ways the pandemic has impacted staff working in nursing facilities.
- 2) Identify a tool that nursing facility leaders can use to continue to support staff.

Target Audiences: Nursing Home Administrators, Directors of Nurses, Staff Development Coordinators, Social Workers, Human Resources Staff

Presenter:

Cassandra Tribe-Scott, Sunlight Consulting, is a Licensed Nursing Home Administrator who consults on the implementation of Lean processes and trauma-informed care practice in nursing homes, hospitals, and behavioral health systems.
