

Preadmission Screening and Resident Review (PASRR)

Executive Office of Health & Human Services

July 2019

Overview

- PASRR basics
- 2. New PASRR Level I form
- 3. Three examples of completing the new form
- 4. Referral to DDS and DMH/Designee
- 5. Other changes to the PASRR process
- Nursing facilities, ASAPs, and hospitals: roles and responsibilities
- 7. Compliance monitoring
- 8. Contact information

PASRR basics

Why is PASRR screening important?

- Comply with federal laws and regulations (42 CFR 483.100-483.138)
- Identify all individuals with PASRR-related disability
- Evaluate each individual's needs and identify services and supports that each individual needs
- Place individuals in the least restrictive setting

Other reasons to complete PASRR

Nursing facilities

Comply with MassHealth regulations (130 CMR 456.410) and applicable subregulatory guidance and avoid *denial* of MassHealth payment

ASAPs

Comply with the EOEA Program Instructions 12-04 "Review of Pre-Admission Screening and Record Review (PASRR) requirements prior to authorization of MassHealth Payment of Nursing Facility (NF) services"

Hospitals

Avoid unnecessary delays in hospital discharge of individuals who need nursing facility services

Who must be screened, and when

- All individuals seeking admission to a nursing facility,* including:
 - MassHealth fee-for-service members
 - Medicaid managed care members (SCO, PACE, ACOs)
 - Medicare members
 - Private-pay individuals
- Level I screening must be done before admission ("preadmission screening") or upon a significant change in condition ("resident review")

^{*}Medicare and/or Medicaid-certified facility

What is PASRR related disability?

- Intellectual Disability (ID)
- Developmental Disability (DD) / Related Condition (RC)
- Serious Mental Illness (SMI)

ID and DD/RC

ID

- Started before age 18
- An IQ score of 70 or less
- Significant limitations in adaptive functioning
- Expected to persist throughout an individual's life

DD / RC

- Functional limitations in three or more areas of life activities before age 22 (self-care, understanding/use of language, learning, mobility, self-direction, capacity for independent living)
- Expected to persist throughout an individual's life
- May be related to autism, cerebral palsy, muscular dystrophy, spina bifida, spinal cord injury, traumatic brain injury, and multiple sclerosis

SMI

An individual is considered to have SMI for the purpose of PASRR if he or she:

- Has had a documented diagnosis of a mental illness or disorder (Diagnosis); and
- Has required a psychiatric treatment (psychiatric hospitalization, residential treatment, etc.)
 or intervention (for example, intervention by housing or law enforcement officials) to
 maintain functioning at home or in a residential treatment environment within the last two
 years (Recent Treatment); and
- Has had functional limitations in major life activities within the past six months
 (interpersonal functioning; concentration, persistence, and pace; or adaptation to change
 (Level of Impairment); and
- Does not have a co-occurring diagnosis of dementia or Alzheimer's disease and/or related disorder (ADRD) that is both the primary diagnosis and so severe/advanced that the individual would be unable to benefit from treatment (No Advanced Dementia).

Who* may complete PASRR Level I forms?

- Nursing facility
- ASAP
- Hospital

^{*} As long as Level I screener is a licensed nurse, social worker, or physician

New PASRR Level I form

Page 1 contains information about:

- Screening type:
 - Preadmission
 - Expiration of exempted hospital discharge / Categorical determinations
 - Resident review
- Corrections to the form
- Individual (e.g., name, address, DOB, current location)
- Authorized representative (e.g., name, address, relationship to the individual)
- Nursing facility (e.g., name, address, the name of a contact person, admission date)

Massachusetts Executive Office of Health and Human Services PREADMISSION SCREENING AND RESIDENT REVIEW (PASRR)

SCREENING TYPE/CORRECTIONS					
□ Preadmission □ Expiration of Exempted Hospital Discharge/Categorical Determination (Section G) □ Resident review					
SUBMISSION / RESUBMISSION DATES					
Initial submission date					
If this form is being resubmitted due to an error and/or to add information, please indicate the section(s) and item(s) changed.

ailure to follow applicable PASRR rules will result in forteiture of MassHealth payments to the nursing facility for MassHealth members during the period of noncompliance. 2 CFR § 483.122					

Page 2 contains information about:

Screen for ID and DD:

Q1: Documented diagnosis or treatment of ID with a date of onset before age 18

Q2: Documented diagnosis or treatment of DD, or RC, with a date of onset before age 22

Q3: Suspicion of ID/DD, and what made you think so (e.g., cognitive impairment, etc.)

ID/DD screening results:

Q4: If "Yes" to any of the first 3 questions, the screen is positive. Otherwise, it is a negative screen.

SECTION A: SCREEN FOR INTELLECTUAL OR DEVELOPMENTAL DISABILITY (ID/DD) 1. Does the applicant have a documented diagnosis or treatment history of ID with a date of onset before age 18? No Yes. List agency that provided services (if known).				
Agency				
Does the applicant have a documented diagnosis or treatment history of DD, also known as Related Condition, with a date of onset before age 22 ? No Yes. List diagnosis and agency that provided services (if known). Skip to Question 4.				
Diagnosis Agency				
3. Is there presenting evidence, based on available documentation, observations, interviews, or history of indicators below, that the applicant may have ID that occurred before age 18 or DD that occurred before age 22 ? No Yes. Check all that apply. Cognitive impairment Adaptive functioning cognitive, or major life activities				
Information source (if known)	Services from an agency that serv	es people with ID or DD		
ID/DD SCREENING RESULTS				
If you answered YES to question 1 or 2 or 3, check "Positive ID/DD screen" below. Otherwise, check "Negative ID/DD screen." Positive ID/DD screen Negative ID/DD screen (Level II PASRR Evaluation is not indicated due to no diagnosis or suspicion of ID or DD.)				
SECTION B: SCREEN FOR SERIOUS MENTAL	ILLNESS (SMI)			
Does the applicant have a documented diagram that may lead to chronic disability? No Unknown Yes. Check ell that apply.	gnosis of a mental illness or disord	er (MI/D) or substance use disorder (SUD)		
□ Schizophrenia (any type) □ Somatoform disorder □ Delusional disorder' □ Mood (i.e., bipolar disorder, major depression) □ Post-traumatic stress disorder □ Severe anxiety/oanic	Schizoaffective disorder Atypical psychosis* Paranoia* Personality disorder Eating disorder Other	□ Substance use disorder Substance(e) if known: Most recent use occurred? □ More than 90 days ago □ Less than 90 days ago □ Unknown		

Pages 2-3 contain information about:

Screen for SMI:

Q5: Documented diagnosis of MI/D or SUD ("diagnosis")

Q6: Treatments or interventions within the past 2 years that may be due to MI/D ("recent treatment")

Q7: Limitations in major life activities within the past 6 months that may be due to MI/D ("impairment")

SMI screening results:

Q8: If "Yes" to Q6 or Q7, the screen is positive. Otherwise, it is a negative screen, even if "Yes" to Q5.

6.	Within the past two years, is the applicant known to have required one of the treatments or interventions below, that is, or may be, due to mental illness or disorder (MI/D)?				
	□ No □ Yes. Check all that apply.				
	□ Psychiatric day treatment □ Residential treatment □ Supportive services to maintain functioning at home □ Substance use intervention	Housing intervention Association with mental health agency Specify Suicide attempt Specify dates Other			
7.	Currently or within the past six months, has the applicant had limit areas listed below, that is, or may be, due to mental illness or disorde				
	□ No □ Yes. Check all that apply.				
	MAJOR LIFE ACTIVITY AREAS □ Interpersonal functioning – □ Concentration, persister	nce, and

Page 5 contains information about:

Q15: Whether one of 5 Categorical Determinations (CD) *may* apply:

- Severe illness
- Terminal illness
- Convalescent care
- Provisional emergency
- Respite

DMH/Designee will determine if Categorical Determination applies after completion of an **Abbreviated** Level II evaluation.

SECTION E: CATEGORICAL DETERMINATION (CD) (SMI ONLY)						
15. Has the applicant screened positive for SMI only and possibly qualify for a categorical determination?						
□ No. Complete Section F. Request a Preadmission Level II Evaluation from DMH/Designee. Do not admit applicant to a nursing facility until a Level II PASRR Determination Notice/written report has been received from the DMH/ Designee.						
Yes. Check only one categorical determination below. Complete Section F. Submit this form and all supporting documentation to DMH/Designee for an Abbreviated Preadmission Level II Evaluation. Do not admit to a nursing facility until a Level II PASRR Determination Notice/written report has been received from the DMH/Designee.						
CATEGORICAL DETERMINATIONS						
CATEGORICAL DETERMINATIONS Severe Illness: Coma Provisional emergency (Maximum 30 calendar days)* Persistent vegetative state Parkinson's disease (End stage) Huntington's chorae (End stage) Congestive heart failure (CHF) (End stage) Chronic obstructive pulmonary disease (COPD) (End stage) Amyotrophic lateral scienosis (ALS) (End stage) Chronic respiratory failure, ventilator dependent The nursing facility must complete Section G below and resubmit the Level I form to DMH/Designee if the NF determines that the resident's stay will exceed the permitted duration. Requests must be made by no later than the 25° day after admission for						
state rules and regulations, and that the information provided is accu	SECTION F. CERTIFICATION: I certify that I am the person who completed this form and did so pursuant to all federal and state rules and regulations, and that the information provided is accurate to the best of my knowledge. I understand that knowingly submitting inaccurate, incomplete, or misleading information constitutes Medicaid fraud.

SECTION G: EXPIRATION OF EHD/CD (SMI ONLY)	SECTION G: EXPIRATION OF EHD/CD (SMI ONLY)					
Please select the reason for request. The nursing facility determined that the resident will not be discharged before the expiration of the exempted hospital discharge (EHD) and is requesting a Level II PASRR Evaluation from DMH/Designee. The nursing facility has determined that the resident will not be discharged before the expiration of the categorical determination selected below and is requesting a Level II PASRR Evaluation from the DMH/Designee. Convalescent care Provisional emergency Respite						

Failure to follow applicable PASRR rules will result in forfeiture of MassHealth payments to the nursing facility for MassHealth members during the period of noncompliance [42 CFR § 483.122]

Categorical Determinations (CDs): 5 Options

Type of CD	Duration
Convalescent care applies when an individual is being directly admitted to a nursing facility after being hospitalized to treat a medical condition (excluding psychiatric care) but the admission does not meet all of the requirements of exempted hospital discharge (EHD). Example: an individual is being admitted to a nursing facility for skilled observation and reconditioning after being hospitalized for treatment of pneumonia.	Max. 75 days
Provisional emergency applies in emergency situations where the individual requires protective services or in emergency circumstances on nights, weekends, and holidays.	Max. 7 days
Respite applies when admission is to provide relief to the family and/or in-home.	Max 15 days
Severe illness applies if an individual has at least one of the following conditions – coma, persistent vegetative state, end-stage Parkinson's disease, end-stage Huntington's chorea, end-stage congestive heart failure, end-stage chronic obstructive pulmonary disease, end-stage amyotrophic lateral sclerosis, and chronic respiratory failure (ventilator dependent) – and, due to the severity of the illness or condition, the individual would be unable to benefit from specialized services.	N/A
Terminal illness applies if a clinician has certified that the individual is terminally ill and the prognosis is six months or less.	N/A

Section F: Contains information about the person who completed and signed the Level I form

SECTION E: CATEGORICAL DETERMINATION (CD) (SMI ONLY)					
15. Has the applicant screened positive for SMI only and possibly qualify for a categorical determination?					
☐ No. Complete Section F. Request a Preadmission Level II Evaluation from DMH/Designee. Do not admit applicant					
to a nursing facility until a Level II PASRR Determination Notice/written report has been received from the DMH/ Designee.					
□ Yes. Check only one categorical determination below. Complete Section F. Submit this form and all supporting documentation to DMH/Designee for an Abbreviated Preadmission Level II Evaluation. Do not admit to a nursing facility until a Level II PASRR Determination Notice/written report has been received from the DMH/Designee.

Expiration of Exempted Hospital Discharge (EHD) or Categorical Determinations (CD)

Section G: Complete this section and resubmit the Level I form before the allowed time period for the Exempted Hospital Discharge (EHD) or Categorical Determinations (CD) expires.

- Check a box for EHD or CD.
- If you checked a box for CD, indicate which type: Convalescent care, provisional emergency, or respite.

If you completed Section G, you must also check the "Expiration of Exempted Hospital Discharge / Categorical Determinations" box at the top of page 1. This will alert DMH/Designee that the Level I form is being resubmitted due to expiration of EHD/CD, and not due to a significant change in condition that may impact the resident's PASRR disability status ("Resident Review")

15. Has the applicant screened positive for SMI only and possibly	qualify for a categorical d	etermination?	
☐ No. Complete Section F. Request a Preadmission Level II Eval			
to a nursing facility until a Level II PASRR Determination N Designee.	lotice/written report has	been received fr	om the DMH/

Resident Review

Submission of the form is required when:

A nursing facility resident has experienced a significant change in condition or the resident is newly identified as having a condition that may impact the resident's PASRR disability status, the appropriateness of NF placement and/or specialized services.

allure to follow applicable PASRR rules will result in forfeiture of MassHealth payments to the nursing facility for MassHealth members during the period of noncompliance.					

Page 6 contains important terms

IMPORTANT TERMS

Preadmission Screening and Resident Review (PASRR)

Abbreviated Preadmission Level II Evaluation (Abbreviated Level II) — A shortened, individualized Level III preadmission evaluation, completed by the Massachusetts Department of Mental Health or its designee (GMH-Designee) before admission individual who have or may have SMI, to determine if the individual is excluded from PASRR due to advanced dementia (Section D) or to confirm that the individual rests the criteria for a categorical determination (Section E).

Advanced Dementia Exclusion (ADB) — Applies when a diagnosis of dementia or Alzheimer's disease and/or related disorder (ADRD) co-occurs with a mental illness/disorder diagnosis, and the dementia/ADRD is both primary and so severe that the individual would be unable to benefit from treatment. If ADE applies, an Abbreviated Level II performed by the DMH/Designee is required before admission. If the DMH/Designee determines that ADE applies, the individual does not have SMI for the purposes of PASRR and may be admitted to the nursing facility with no further PASRR involvement.

Categorical Determination (CD) — Applies to individuals who screen positive for SMI and have characteristics that fall into certain categories determined in advance by the DMH/Designee that nursing facility services are needed on a time-limited basis or indefinitely. If CDs apply, an Abbreviated Level II must be performed by the DMH/Designee before admission to confirm SMI and that the criteria for a CD are met. There are five categorical determinations.

- Convalescent care applies when an individual is being directly admitted to a nursing facility after being hospitalized to treat a
 medical condition (excluding psychiatric care) but the admission does not meet all of the requirements of emptied hospital
 discharge (EHD), Example: an individual is being admitted to a nursing facility for skilled observation and reconditioning after
 being hospitalized for treatment of pneumonia filmited to a maximum of 30 calender days.
- Provisional emergency applies in emergency situations where the individual requires protective services or in emergency circumstances on nights, weekends, and holidays (limited to a maximum of seven calendar days).
- Respite applies when admission is to provide relief to the family and/or in-home caregiver (limited to a maximum of 10 calendar days).
- 4. Severe illness applies if an individual has at least one of the following conditions coma, persistent vegetative state, end-stage Parkinson's disease, end-stage parkinson's disease, end-stage can provide the several fullure, end-stage control obstructive pulmonary disease, end-stage amystrophic lateral sclenosis, and chronic respiratory failure (ventilator dependent) and, due to the severity of the illness or condition, the individual would be unable to benefit from specialized services.
- 5. Terminal illness applies if a clinician has certified that the individual is terminally ill and the prognosis is six months or less.

For individuals who were admitted to a nursing facility under one of the time-limited CDs, the nursing facility must request a Resident. Review from DMH/Designee before the time period ends if the nursing facility determines that the stay is expected so exceed the time period. For severe illness and terminal illness categories, the nursing facility must request a Resident Review if the resident's condition improves or prognosis changes.

Exempted Hospital Discharge (EHD) — Applies when all of the following conditions are met. The individual (1) is admitted to a nursing facility directly from an acute hospital after receiving inpatient acute medical care; (2) requires nursing facility services to treat the same medical condition treated in the hospital; (3) is not a current risk to self or others, and behavioral symptoms, if present, are stable; and (4) stay in the nursing facility is likely to be less than 30 calendar days as certified by the hospital's attending or discharging physician before admission. If all EHD criteria are met the individual may be admitted without PASRF involvement.

Some residents who were admitted to a nursing facility under EHD may require a longer stay than originally expected. If such residents are expected to stay in the nursing facility for more than 30 days after admission, the nursing facility must request a Resident Review from the DDS and/or OMH/IDesignee before the original 30-day period ends.

Serious Mental Illness (SMI) - An individual is considered to have SMI for the purpose of PASRR if he or she:

- Has a major mental disorder, such as schizophrenic, paranoid, mood, panic or other severe anxiety disorder; somatoform disorder; personality disorder; other psychotic disorder; or another mental disorder that may lead to a chronic disability (Diagnosis); and
- 2. Has a treatment history indicating that the individual has received psychiatric treatment more intensive than outpatient care more than once in the past two years, or within the last two years, has experienced an episode of significant point of the normal living situation for which supportive services were required to maintain functioning at home or in a residential treatment environment, or which resulted in intervention by housing or law enforcement officials (Recent Treatment); and
- 3. Has a level of disability that has resulted in functional limitations in major life activities within the past six months that would be appropriate for the individual's developmental stage. An individual typically has at least one of the following contacteristics on a continuing or intermittent basis: interpersonal functioning; concentration, persistence, and pace; or adaptation to change (Level of Impairment): and
- Does not have a co-occurring diagnosis of dementia or Alzheimer's disease and/or related disorder (ADRD) that is both the primary diagnosis and so severe/advanced that the individual would be unable to benefit from treatment (Advanced Dementia Exclusion).

NOTE: Keep this form, Level II PASRR determination notices and/or written reports, and all documentation that supports the screening outcome and applicability of advanced dementia exclusion, exempted hospital discharge, or categorical determination permanently in the individual's medical record.

General instructions

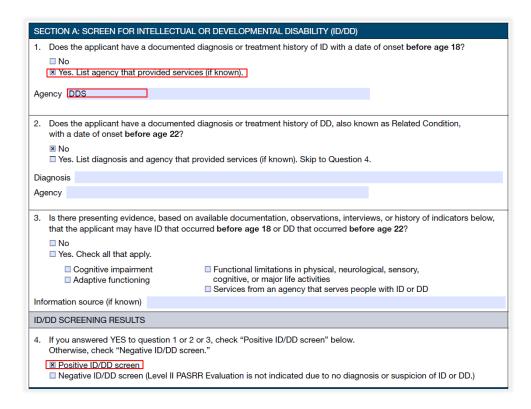

- Collect supporting documentation needed to complete the Level I Screening Form (e.g., Medical History, Discharge Summary, Physician Certifications).
- Read the instructions in the form carefully.
- Complete a Level I form, including Certification Section (Section F)
- Notify DDS and/or DMH/Designee:
 - *SMI*:
 - Send the Level I form, cover sheet, and supporting documents to UMass PASRR Unit by email (<u>DMHPASRR@umassmed.edu</u>) or fax (508-856-7696)
 - ID/DD:
 - Call within 24 hours of admission at 617-624-7796
 - Email the Level I form and supporting documents to <u>DDS.PASRR@State.MA.US</u>
- Keep the Level I form, any Level II PASRR Determination notices and/or written reports and all documentation that supports screening outcome, and applicability of Exempted Hospital Discharge (EHD), Advanced Dementia Exclusion (ADE), and Categorical Determination(s), permanently in the individual's medical record.

PASRR Level I completion: Example #1

Mark

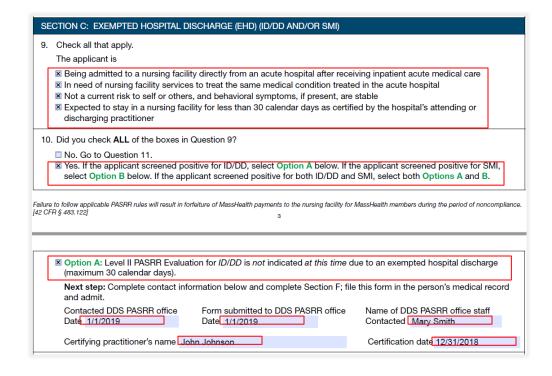

- A 35 year old male
- Has received DDS services
- Hospitalized for an emergency appendectomy
- Initial discharge date was delayed due to complications
- Needs a short stay in a nursing facility to continue his wound treatment and finish his course of IV antibiotics (certified by a physician)
- Multiple diagnoses, including:
 - Down Syndrome

PASRR Level I completion: Example #1, cont.

Mark

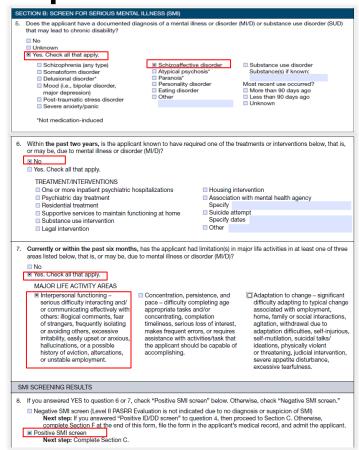

- A 35 year old male
- Has received DDS services
- Hospitalized for an emergency appendectomy
- Initial discharge date was delayed due to complications
- Needs a short stay in a nursing facility to continue his wound treatment and finish his course of IV antibiotics (certified by a physician)
- Multiple diagnoses, including:
 - Down Syndrome

PASRR Level I completion: Example #2

Jane

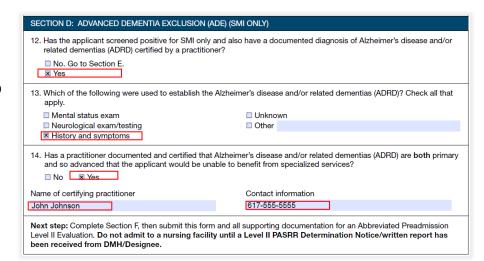

- 78 year old female
- Multiple diagnoses, including:
 - Schizoaffective Disorder
 - Alzheimer's Disease
- Receives supportive home care aide services, after being diagnosed with AD, to remind her to take her medication.
- Has recently become increasingly paranoid when her homemaker comes to the door to assist her;
- Requires oxygen 24/7; was found last week sitting in the hallway of her apartment building, confused and without her oxygen
- Significant progressive decline in cognitive functioning; AD can no longer be safely managed in the community

PASRR Level I completion: Example #2, cont.

Jane

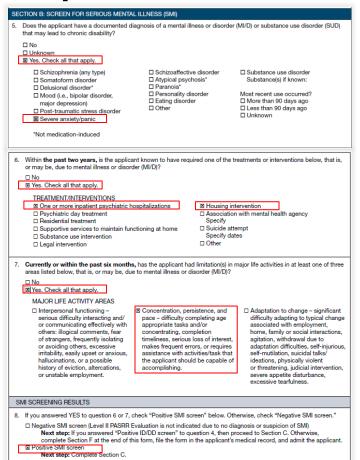

- 78 year old female
- Multiple diagnoses, including:
 - Schizoaffective Disorder
 - Alzheimer's Disease
- Receives supportive home care aide services, after being diagnosed with AD, to remind her to take her medication.
- Has recently become increasingly paranoid when her homemaker comes to the door to assist her;
- Requires oxygen 24/7; was found last week sitting in the hallway of her apartment building, confused and without her oxygen
- Significant progressive decline in cognitive functioning; AD can no longer be safely managed in the community

PASRR Level I completion: Example #3

Mary

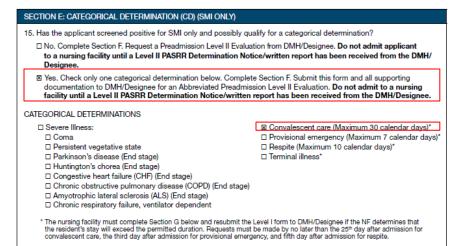

- 55 year old female
- Multiple diagnoses, including:
 - Anxiety Disorder
- Admitted to the hospital one week ago due to multiple falls at home, dizziness, chest pain and newly diagnosed congestive heart failure
- While hospitalized, received a neurological evaluation and testing to identify potential impairments because she was unable to walk and had leg weakness and was demonstrating episodes of memory loss
- [Per her sister] Lost her job and has been having some financial difficulty and the home is currently in foreclosure; hospitalized for psychiatric evaluation 8 months ago because she stopped taking her medication
- [Per the hospital] needs nursing facility services to recuperate and receive rehabilitation services to help with her dizziness and leg weakness

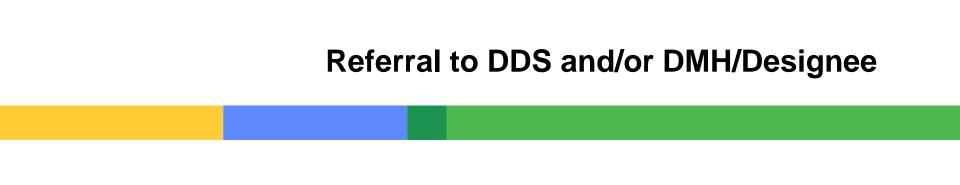

PASRR Level I completion: Example #3, cont.

Mary

- 55 year old female
- Multiple diagnoses, including:
 - Anxiety Disorder
- Admitted to the hospital one week ago due to multiple falls at home, dizziness, chest pain and newly diagnosed congestive heart failure
- While hospitalized, received a neurological evaluation and testing to identify potential impairments because she was unable to walk and had leg weakness and was demonstrating episodes of memory loss
- [Per her sister] Lost her job and has been having some financial difficulty and the home is currently in foreclosure; hospitalized for psychiatric evaluation 8 months ago because she stopped taking her medication
- [Per the hospital] needs nursing facility services to recuperate and receive rehabilitation services to help with her dizziness and leg weakness

When to refer an individual to DMH/Designee

Referral is required:

- An individual screens positive for SMI and does not meet requirements for Exempted Hospital Discharge (EHD). This is true even if the individual also may be eligible for the Advanced Dementia Exclusion (ADE) and/or a Categorical Determination (CD)
- For individuals who had been admitted under the EHD (SMI) or a time-limited CD (SMI only), if the nursing facility determines that the individual's stay is likely to exceed the EHD or CD's permitted duration:
 - By day 5 for provisional emergency
 - By day 13 for respite
 - By day 73 for convalescent care
 - By day 28 for EHD
- A resident has experienced a significant change in condition or the resident is newly identified as
 having a condition that may impact the resident's PASRR disability status, the appropriateness of
 NF placement and/or specialized services

Pre-admission referral is *not* required:

- An individual screens negative for SMI
- An individual screens positive for SMI and meets all the criteria for EHD

When to refer an individual to DDS

Referral is always required!

- If an individual screens positive for ID/DD, a referral must be made regardless of how long an individual may need to stay in a nursing facility. This includes individuals who meet the EHD requirements.
- A resident has experienced a significant change in condition that may impact the resident's PASRR disability status, the appropriateness of NF placement and/or specialized services.

What documents to submit to DMH/Designee

Completed PASRR Level I form

Completed cover sheet

Supporting documentation

History and Physical (H&P)
Minimum Data Set (MDS), if applicable
Current medication list
Neurological assessment
Functional assessment
Social history
Specialty assessment, if applicable
Substance use history documentation
Discharge summary, if applicable
Two weeks of MD and/or nursing notes
Psychiatric evaluation, if applicable
Psychiatric consultative findings, if applicable
Skilled therapy assessment

What documents to submit to DDS

- Completed PASRR Level I Form
 - Supporting documentation will be collected by DDS staff during Level II Evaluation

Timeframes for Level II evaluations

DMH/Designee

- Within 5 business hours for Abbreviated Level II Evaluation (for ADE and CD)
- 2-3 business days of receipt of completed referral, for a comprehensive Level II evaluation at:
 - Acute inpatient hospital
 - Inpatient psych hospital
 - VA hospital
- 7-9 calendar days of receipt of completed referral for a comprehensive Level II evaluation:
 - An non-acute inpatient hospital (Chronic Disease and Rehab Hospital)
 - In the community

DDS

Within 1-3 business days for a comprehensive Level II evaluation

Other changes to the PASRR process

- Level II evaluations for SMI may no longer be completed by hospitals. All Level II evaluations must be completed by DMH/Designee
- Weekend coverage for abbreviated PASRR Level II evaluations (ADE or CD)
- Level I screeners no longer need to complete Screening Questionnaire (9 questions)

Nursing facilities, ASAPs, and hospitals:

roles and responsibilities

Nursing facilities: roles and responsibilities

- Ensure that a Level I screening was completed for *all* individuals before admission ("preadmission screening") or upon a significant change in condition ("resident review")
 - If the screening was completed by a hospital or an ASAP, receive a copy of the screening and supporting documentation before admission
- Make referrals to the Department of Developmental Services (DDS) and/or the Department of Mental Health (DMH)/Designee in a timely manner, when required:
 - DDS: Individuals who may have or may have ID or DD/RC
 - DMH/Designee: Individuals who have or may have SMI
- If the referral was made, do not admit an individual to a facility until the facility receives a Level II Determination Notice from DDS and/or DMH/Designee.
- Retain all supporting clinical documentation, including the Level I Form, medical records, PASRR Determination Notices

ASAPs: roles and responsibilities

- Conduct a Level I screening for individuals seeking admission to a nursing facility directly from the community (excluding emergency departments and observation stays)
- Make referrals to DDS and/or DMH/Designee in a timely manner, when required
- Share the Level I form, supporting documentation, and a Level II Determination with a nursing facility in a timely manner (if requested by a nursing facility)
- Issue clinical eligibility notices for nursing facility services only upon receipt of:
 - A completed Level I form; and, if applicable,
 - A Level II Determination Notice
- Ensure that the clinical eligibility notice is consistent with the determination made by DDS and/or DMH/Designee (if applicable)
- Retain all supporting clinical documentation, including the Level I Form, medical records, PASRR Determination Notices

Hospitals: roles and responsibilities

- Cooperate with and provide information to nursing facilities and ASAPs to ensure accurate and appropriate completion of a Level I Screening
- Certify, if applicable, that "Exempted Hospital Discharges" to nursing facilities meet all the Federal exemption requirements. An individual must:
 - Be admitted directly from acute hospital after acute medical care;
 - Need NF services to treat same medical condition treated in hospital;
 - Not be a current risk to self or others and behavioral symptoms are stable; and
 - Be expected to stay in a nursing facility for less than 30 calendar days as certified by the hospital's attending or discharging practitioner
- Provide a nursing facility with a written certification of EHD prior to admission, if applicable
- May conduct a Level I screening for individuals seeking admission to a nursing facility
- May make referrals to DDS and/or DMH/Designee
- Share the Level I form, supporting documentation, and a Level II Determination with a nursing facility in a timely manner (if requested by a nursing facility)

Compliance monitoring

Compliance monitoring

MassHealth:

- Will be scheduling PASRR audits in the near future
- Must withhold MassHealth payments for the period of non-compliance [42 CFR § 483.122]; and
- May impose additional sanctions for failure to comply that include but are not limited to administrative fines, provider restrictions and suspension or termination from participation in MassHealth [130 CMR 450.238]

Contact information

DMH PASRR Office (University of Massachusetts Medical School)

- Make a PASRR referral for SMI by sending the PASRR Level I form, cover sheet, and supporting documents by email (DMHPASRR@umassmed.edu) or fax (508-856-7696)
- For general questions, please call 866-385-0933
- For escalations, please email:

Terri Podgorni, Associate Director of PASRR Unit <u>Terri.Podgorni@umassmed.edu</u> Kerri Ikenberry, Director of Clinical Services, DCS <u>Kerri.Ikenberry@umassmed.edu</u> Marie Brunelle, DMH MAP Director <u>Marie.Brunelle@state.ma.us</u>

Department of Developmental Services (DDS)

- To notify of admission and make a referral for ID/DD, please call 617-624-7796
- To send a PASRR Level I form and supporting documents, please email <u>DDS.PASRR@State.MA.US</u>
- For escalations, please call Nancy Weston, DDS Director of PASRR and Nursing Facility Operations, at 617-624-7820

MassHealth

 If you have any suggestions or concerns about the PASRR process, please email Pavel Terpelets, Deputy Director of Institutional Programs, <u>Pavel.Terpelets@State.MA.US</u>

PASRR training materials

 These slides, the new Level I form, and other materials will be posted on the MassHealth LTSS Provider portal at https://www.masshealthltss.com/s/?language=en_US
