Program Description:
Now that the transition to PDPM is behind you, it's time to refocus on the mandated programs from CMS. These programs have not gone away and continue to present opportunities and challenges for SNF providers. In fact, each year there are new changes. Come join us for a lively, interactive educational event where we will review the 2019 changes from CMS on Five Star, PBJ, QRP and VBP. During this workshop, we will offer insights and suggestions on how you can improve your facility's performance.

Objectives
At the conclusion of this seminar, participants will:

- Define 5 changes in the mandated programs impacting SNF providers in 2020;
- State three strategies which will result in improvement of performance within the mandated programs and other Requirements of Participation; and
- Incorporate the elements of QAPI into an outcome's analysis using a VBP case study.
